

SIGHT GLASS LOADER

Sight Glass Loaders are designed to provide a cost effective means of loading up to 600 pounds of material directly to the process machine. Both electric and pneumatic options are available. Sight glass for easy viewing of material status and is mounted directly at the throat of the machine. This minimizes the amount of stored products and allows fast material changes.

Model D1K
Ratio Loader

Model C1E
Electric Loader

4 Models to Choose From:

1. Standard Single Material
2. Standard Ratio Loaders
(Allows Re grind & Virgin to be loaded)
