Custom screws with our "Performance Guarantee" Molders Choice can improve most OEM screw designs depending on the plasticizing or mixing deficiencies you are presently experiencing.

The cost of plastic materials & additives such as Glass, Talc, Colorants, etc are all increasing drastically. Now's the time to modify or change your plasticizing screw to improve the process and lower your operating COSTS.

We Offer:

- Improved designs for processing regrind.
- Mixing sections to assure proper dispersion of color.
- A variety of tool steels and surface treatments to prolong the life of the screw.
