**AIR-POWERED HOPPER LOADER**

### Quieter than Vacuum Loaders
### Safer and More Efficient than Hand-Loading

- Easy Setup
- No Maintenance
- No Breakdowns
- The LOWEST COST hopper-loading machine available.
- Compressed air is continuously connected. When hopper fills, back pressure stops material flow.
- Conveys as much as 300 lbs/hr

**Includes:**
- .80” intake Diameter Airflow Amplifier
- 3’x 1-1/4” Aluminum Feed Tube (Probe)
- 10’x 1-1/4” Flex Hose
- J-Shaped Aluminum Discharge Tube
- Airline Filter/Regulator

### Probes Magnets

- Your first line of defense against stray pieces of steel in your material*
- Prevents probe blockage from gaylord liner bags being sucked into probe.
- Helps prevent:
  - Clogged Nozzles
  - Scored Feed Screws and Barrels
  - Tom Hopper Loader Filters
  - Contaminated Parts
  - High-Power Alnico Magnet.
  - Welded Stainless Steel Shell and Bracket ensure long-term use.
  - Concave Top Surface provides pocket to keep trapped pieces from being wiped off by flowing plastic.

* Hopper Magnet Needed for Maximum Protection
