100 LB RESIN HANDLING BIN

IDEAL FOR STORING / UNLOADING:
- MASTERBATCH MATERIALS
- SHORT RUN RESINS
- BAGGED MATERIALS
- REGRIND MINI SELF-EMPTYING

MINI SELF-EMPTYING RESIN HANDLING BINS are designed for use with vacuum loading systems using pickup wands. An angled chute directs the vacuum wand to the lowest point in the bin, where gravity feeds the resin to the wand. Bins are made of HDPE and include transport handle, casters and a lid.

Bin Capacity: approx. 110 lbs. (50 kgs.) or 2.86 cu. ft.

Molded with FDA Approved Resin, Also includes Anti Static Adder

Self-Emptying Resin Handling Bins are designed for use with vacuum loading systems using pickup wands. An angled chute directs the material to the wand at the lowest point in the bin, where gravity feeds the resin to the wand for pickup. A cleanout door facilitates fast and thorough bin cleaning for material/color changes. All bins include the lid and heavy duty casters.

New, Redesigned Model with the wand opening now at the top to take up less room around the press

Molded with FDA Approved Resin, Also includes Anti Static Adder

Capacity: 300 lb (136 kgs) or 8.57 cu. ft.
