

AIR-POWERED HOPPER LOADER

Quieter than Vacuum Loaders

Safer and More Efficient than Hand-Loading

Easy Setup

No Maintenance

No Breakdowns

Standard

- The **LOWEST COST** hopper-loading machine available.
- Compressed air is continuously connected. When hopper fills, back pressure stops material flow.

Or with AUTOMATIC CONTROLLER

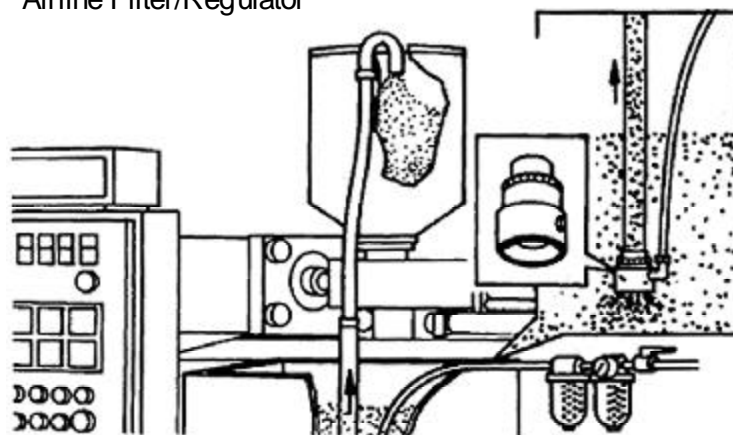

- Increased Efficiency
- Proximity sensor in hopper detects material level. When level drops, air switches on to load material. When hopper fills, air shuts off.
- Includes **No Load Alarm**, occurs if hopper does not fill within settable period of time you set. Set for Visual Alarm only, or Visual and Audible Alarm.

A Molders Choice Exclusive.

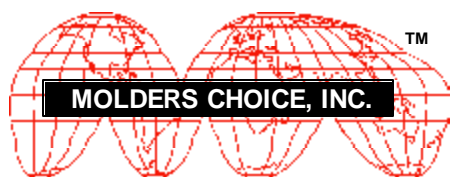

Conveys as much as 300 lbs/hr

Includes:

- .80" intake Diameter Airflow Amplifier
- 3' x 1-1/4" Aluminum Feed Tube (Probe)
- 10' x 1-1/4" Flex Hose
- J-Shaped Aluminum Discharge Tube
- Airline Filter/Regulator
