

STATIC ELIMINATING EQUIPMENT

Eliminate 4 Common Molding Operation Problems:

- 1.) Dust Attraction to molded parts
- 2.) Molded parts adhering to conveyors, part chute etc.
- 3.) Damage & Interference in Electronic Components
- 4.) Shocks to personnel

Any molding operation that paints, plates, silk screens or assembles by glueing or sonic welding should use Molders Choice Static Eliminators

Molders Choice has the most complete line of Static Control Devices, we are your **"Static Eliminators"**

1. Static Locator
2. Hand Held Guns
3. Pin Point Nozzles
4. Compressed-Air Ionizing Curtains
5. Powerful Air Blowers

983v2 STATIC LOCATOR

- DIGITAL DISPLAY
- MEASURES STATIC CHARGES UP TO 200kV
- LOCATES STATIC CHARGE IMMEDIATELY
- STABILIZED, EASY TO READ, DIGITAL DISPLAY
- HAND HELD, PORTABLE, WITH CARRYING CASE
- ACCURATE TO $\pm 5\%$

The Static Locator is used not only to determine the location and intensity of the static problem, but is also an invaluable tool in monitoring the effectiveness of the positioning and performance of the static eliminators selected.

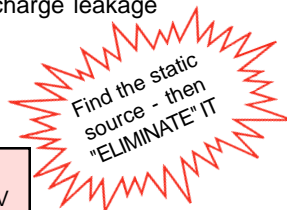

The shows the location of the static charge by using three LEDs that are illuminated when pointing exactly at the charge. Protected circuitry eliminates charge leakage and ensures accuracy.

SPECIFICATIONS:

Ranges: 6": 100V to 200kV; At 2": 50v to 50kV

Dimensions: 6" x 3" x 1". Weight: 7 oz.

Battery: (2) AA Alkaline

Model 983v2

\$710.00
